1 Team Leader / Sports Director

About Us

Our team has been active in the European motorsport **since 2008** and one of the basic pillars of the team, is the training of young drivers from karting, considered the birthplace of motoring, focusing on the improvement and learning of all its drivers to achieve results. For this reason, in parallel to the competitions, VRT is active throughout the year performing numerous tests in different circuits and driving courses with professional pilots to achieve greater progression of their drivers.

Numerous drivers with international success today, began their apprenticeship in the circuits of the hand of team VRT as the pilot of the Audi TT Cup **Mikel Azcona**.

Over the years, our team has become a specialist with the Clio Cup, **winning the championship last year 2017** and obtaining the **award as the best preparation team**, as well as the second and third place, Junior, Amateur and Women's trophy .

A.Royo- Champion Clio Cup Spain 2017 with team VRT

WHY THE CLIO CUP?

Direct descendant of the R8 Cup Gordini, the Renault Clio Cup Spain is a single-brand cup of consolidated prestige in our circuits.

Renault Sport Technologies (RST) puts its experts and their knowledge at the service of the pilots and teams with a modern product, of remarkable benefits and economic.

With absolute technical equality, the Clio Cup confers maximum attractiveness to piloting, rewarding the best and supporting all the participants.

Accessible for all types of budgets, is recognized National Cup allows a tailor-made participation: participating in some tests or, in the entire championship.

- Classification General, Categories Ladies, Junior, Rookie, Amateur
- Equality at sport level
- Technical assistants of Renault Sport
- Possibility of cost reduction by participating 2 pilots per vehicle.
- Fun, performance and coexistence.

This season commemorates the 50th anniversary of the Cup, being a special year for Renault and the brand, which aim to make their cups the most successful in European motorsport.

Arrive & Drive

Available for all Clio Cup Classes

Arrive and drive is the easiest and often the most effective way to get involved in car racing, as it removes the need to buy or build a competitive race car.

We also take care of replacement parts, car preparations and maintenance.

Team VRT provide reasonably price Arrive & Drive packages in the **Clio Cup Spain & France**. Whether your looking to race for the season or a single round, we can cater for your needs.
